MADE IN EUROPE

Produced in Europe using high-quality materials, the new WOW Luxury Outdoor brand benefits from the entire ES Group's expertise gathered over many years in the upholstered furniture segment. Both the materials used for the upholstered furniture and the furniture itself regularly undergo stringent internal testing. It is with the same diligence too that recurring inspections are carried out at all suppliers who are based exclusively in Europe. This not only guarantees the quality of all raw materials used and of the processing steps involved, but also ensures the consistent high-class finish and safety that comes with the finished product.
